Controller Urges National Banks to Increase Their Bank Note Circulation--All Mints Working at Full Capacity.

Washington, Oct. 30.—Controller Ry as it can be done, not only in the Ridgely issued an official statement large cities requiring currency for payrolls and such purposes, but also today which says:

"The Controller's office will in every in the country districts where the proper way facilitate the immediate banks have difficulty in obtaining increase of National bank note circulation from their reserve agents. With this end in view, all such. There are a large number of banks national banks as have government which have less than the maximum bonds in the hands of the treasurer amount of circulation outstanding of the United States, to secure de. Many of these have government bonds on deposit to secure government deposits. Mr. Ridgely is urging these banks to substitute other bonds acceptable to the Treasurer for their depositors' security and have the government bonds thus released for taking out increased circulation.

There is a possibility of increasing the circulation from \$10,000,000 to \$20,000,000 in this way with circulating notes actually printed and now on hand in the vaults of the controller's office.

Three Hundred Million Increase.
There are over \$90,000,000 of government bonds in the hands of the Treasurer to secure government deposits, and it would be possible to increase national bank circulation by over \$200,000,000 before the limit of capital stock is reached. The telephone and telegraph lines are being used to urge banks to take prompt action in this matter.

The conditions in the Treasury department, according to the officials, are very satisfactory in view of the large disbursements of the past week. The director of the mint has been instructed to work to the utmost capacity of the mints at San Francisco (Continued on Page Two.)

GUESS ABOUT APPOINTMENTS

President Sees Many Oklahomans--Cromwell and Campbell May get the Judgeships--Roosevelt Reiterates Promise of Statehood Nov. 16.

Washington, Oct. 30.—Nobody knows the mind of the president regarding appointments to federal positions in Oklahoma. Candidates and their friends are guessing and also claiming. It is a fact, however, that several candidates for the judgeship of the eastern district admit that Judge R. E. Campbell will in all probability be appointed. It was practically admitted last night that the president would appoint W. O. Cromwell to the bench of the Western district, and but it does not appear so likely tonight. It is believed that if Cromwell is not selected, Judge Bayard T. Hainer will be chosen. There is strong reason for saying that Judge Hainer will be appointed.

Gov. Frantz has recommended Cromwell, the attorney general of Oklahoma, and also Judge Campbell.

Alonso A. Byers of Oklahoma City, a leading democratic member of the constitutional convention, had a long

dent was considering his claims most favorably, and would not make an appointment to the bench of the Eastern district until he had talked further with him.

"President Roosevelt told me personally," said Judge Shepherd tonight, "that he was satisfied as to my character and qualifications and needed only local indorsements. These I have sent for, and Mr. Roosevelt has promised to await their coming before making an appointment. I believe the republicans are so badly divided that a democrat is justified in expecting to win out."

The vigorous protest registered by Gov. Frantz against outside interference in the matter of appointment, such as Senators Warner of Missouri and Curtis and Long of Kansas have been guilty of, was a feature of today's proceedings.

Senator Warner called on the president today and introduced Represent-

talk with the president today, and came away convinced that the two judges would be taken from the trio composed of Judges Hainer, Campbell, and J. T. Dickerson. He was inclined to believe the first two would be chosen.

It is reported tonight that an agreement has been reached through which Judge Dickerson is to be appointed to the District Attorneyship of the Eastern district, with Judge Campbell on the bench. This is not absolutely confirmed.

The prospects of candidates for the other offices to be filled are absolutely unknown. They appear to have been lost sight of entirely in the struggle for other places.

The president received many Oklahomans today, all of them desiring to discuss appointments.

Gov. Frantz called, but merely for the purpose of presenting his friends.

Judge J. H. Campbell of McAlester, the only democratic candidate for appointment to the bench in the state, sprung somewhat of a surprise by announcing today that the president

ative-elect Campbell, a democrat. "We desire to be allowed to compose our own differences," Frantz said, "and do not desire outside assistance."

"I can guarantee you statehood," were the parting words of the president today to Mr. Byers, who spent a few minutes with him.

Attorney General Bonaparte also told Mr. Byers there was not the slightest doubt that the president would issue his proclamation on Nov. 16. Judge Hainer said tonight he would leave for home Saturday morning, and would hold court at Perry on next Monday.

Never-Ending Treasure.

No man has ever discovered all the good there is in a fellow-man. And it often seems as though we were most blind to the good in those whom we really hold dearest. As Mr. Mabie has said: "We rarely know our best friends on their best side; our vision of their noblest selves is constantly obscured by the mists of preoccupation and weariness." If there is unseen good in those whom we love, there is still more unsuspected good in those who are unattractive to us—unattractive only because he won't look for the good that is there. What a rich mine of unworked treasure, then, is at hand for us all! In friends and foes, those whom we love, and those to whom we are indifferent, are veins of precious ore that we can never exhaust, try as we may! Would it not give a new meaning and joy and zest if we should start today at discovering some of this treasure, determining to count any day wasted in which we have not turned up new gems?—Sunday School Times.

THIS AND THAT.

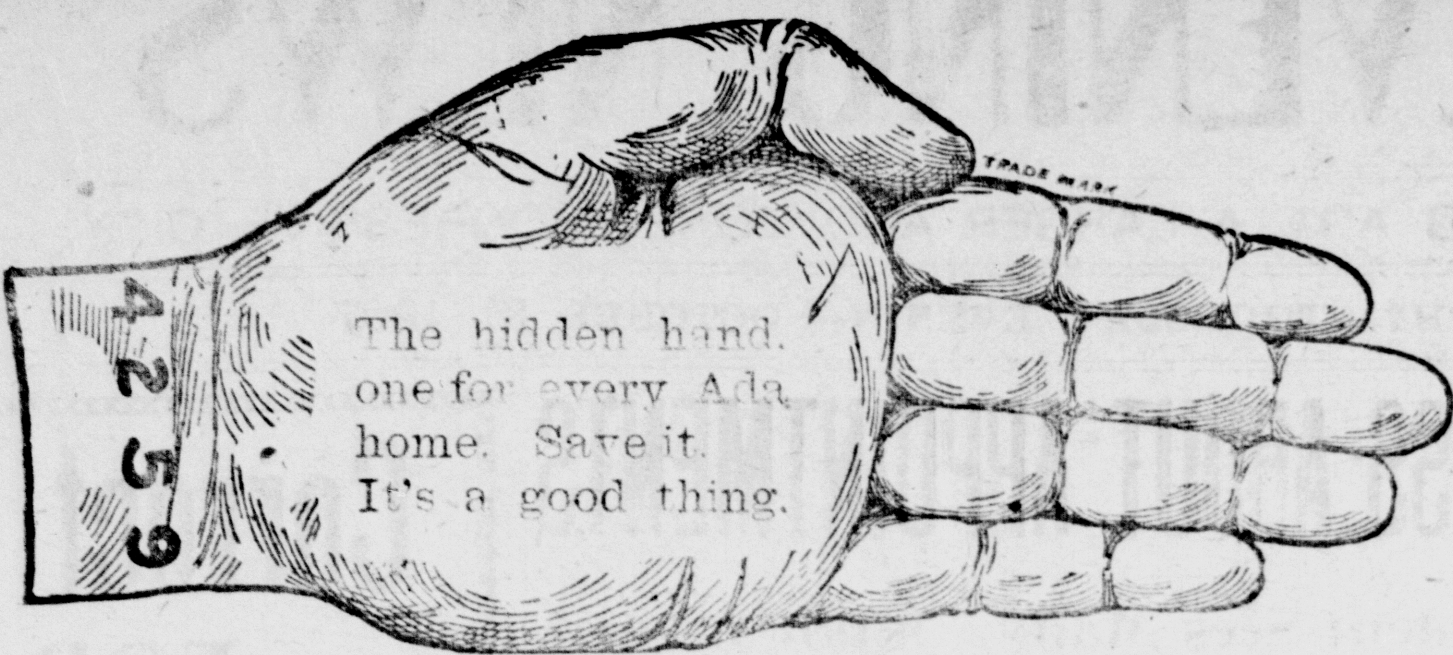

The Great Eternal Law of Reciprocity.

"Whoever good thing any man doeth the same shall be receive of the Lord, whether he be bond or free." We may believe with Mr. Emerson that the broadest law in the universe is the law of compensation. It is the last consolation of human nature to feel an abiding sense of gratitude for kindness received. None but the hopelessly abandoned and ignoble fail at this point. Those who today are scattering hate and strife and unloveliness are the recipients of the same; while, on the other hand, all that is good in all worlds stands pledged to make proper returns of goodness. In the execution of this principle the Lord takes the lead.—Ramsey.

CHRIST OR CAESAR?

It is our duty as Christian citizens, to acknowledge practically the moral supremacy of Christ in the personal relations which we sustain to the civil government, as really as in any other relations whatsoever. "Christ or Caesar?" This is the question which addresses itself to our conscience in these times as sternly as it was addressed to the consciences of men in the first century of the Christian era.

When Pontius Pilate sat in judgment on the unoffending Jesus of Nazareth, he was aware of a hard struggle between his heart and his conscience. He saw that the prisoner was the victim of bigotry, and from wounded pride the Jewish aristocracy sought his death. In the charge of sedition brought against Christ, Pilate poured scornful contempt. After a full examination of the case, he exclaimed, "I find no fault in him." Nevertheless when war was raised, "If thou let this man go, thou art not Caesar's friend," the

ruled passion of the Roman governor was successfully addressed; ambition swept all before it: the love of honor made him a moral coward; he cringed before the priesthood and their hired mob, whom he alike despised, and abandoned Christ from the fear of displeasing Caesar.

This event was the chief era of Pilate's history, and may have been the turning point of his destiny. A similar probation, however, is today allotted unto men, and to the hearts of all the hour of temptation still brings home the question, Christ or Caesar?

The statesman in his elevated sphere of action is still obliged to face the alternatives, to hear its voice, and to give the answer which shall be for weal or woe. The citizen as he approaches the ballot box, hesitating between the call of duty and the clamor of party, when he casts his vote, gives the reply which determines his position as a servant of God or Mammon of Christ or Caesar. The legislator, when he lifts his hand as the sign of a final decision on some grave measure which involves far-reaching moral consequences, is forced no less than was Pontius Pilate, to choose whether he will obey the truthful oracle within him, or will shrink before the terror of that party cry, "Thou art not Caesar's friend." In the history of nations, it is a rare case to find statesmanship on the side of Christ and his cause, but it has generally verified the saying attributed by ancient prophecy to the rulers of the earth: "Let us break his bands asunder, and cast away his cords from us."

It becomes the churches of the forty-sixth star of the banner of liberty to regard with an interest, more concentrated and intense than has yet been seen the evangelization of this continent considered in its relation to the ultimate triumph of the Messiah's kingdom.

We have seen that the great outward antagonism to the aims of Christianity is found in that organization of social power which takes the form of political government, in the administration of which the few rule the many, and close every avenue through which the light of truth can reach the masses of the people. But it is our happy fortune to live in a land where the ruling power is wielded by the people themselves. Here this old antagonism can exist but in a comparatively limited degree; for, although trading politicians, senators, and representatives may betray their trusts, as they have sometimes done, the people still hold the remedy in their own hands. Here public opinion is a power behind all organized form of government, and it can make or break these forms at its pleasure. Here, midway between the two great oceans of the globe, is a state exhibiting a spectacle the like of which the sun never shone upon before. Here, Christianity has her chosen way of operation by direct appeal to the individual, and by direct access to the millions without "let or hindrance."

Was there ever a time or place that opened to the friends of truth such a bright career? Did God ever call with stronger emphasis to his people than he does to every one of us, saying, "Son go work today in my vineyard." Let but the hills and valley, the fields and prairies, the towns and cities of this new state be thickly set with self-governed churches, acting in concert to the great Master's work, and then shall we be a self-governed people, before the out-goings of whose influence, the schemes of diabolus have so long cursed our people shall give way, just as the icy solitudes of the north are melted beneath a summer's sun, and are clad in robes of beauty, and echo the carol of bird's and the song of the reaper.

WILL PROTECT GAME IN INDIAN TERRITORY

Muskogee, I. T., Oct. 29.—Orders have gone forth to 39 Indian policemen stations in various parts of Indian Territory to enforce the orders of the Indian agent relative to the killing and shipping of game contrary to law, and a vigorous campaign has been started to protect the game until a vigorous state law can be made effective.

It is unlawful to kill game of any kind and sell or ship it out of the territory. Any person who is found hunting, provided he is not an Indian without the consent of the Indian agent, is subject to arrest and to have his hunting outfit confiscated and sold. Every fall complaints by the score come in to the Indian agent about depredations of this character. This year he has decided to take vigorous steps to stop it.

The express companies have agreed to refuse for shipment any consignment of game to be shipped out of the territory. This stops a lot of pot-hunting that has usually been done. The Indian policemen have been instructed to keep a sharp lookout for game sold in the local markets and to confiscate it and arrest the person selling it. More attention is paid to deer that have been killed than any other game, as venison brings a high price on the local markets and it is tempting business for the pot hunter.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. With one that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and yellow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. CLEAN YOUR BLOOD.

Valuable Prescription Which Takes Out All the Impurities.

A leading health journal, in answering the question, "What is the best prescription to clean and purify the blood," prints in a recent issue the following: Fluid Extract of Dandelion one-half ounce, Compound Kargon one-half ounce, Compound Syrup Sarsaparilla one-half ounce.

familiar with this, that it is harmless, being composed of simple ingredients which can be obtained from any good prescription pharmacy.

It cleans the blood of all impurities and nourishes the blood. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down, debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Kargon and Extract Dandelion works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

This prescription is better than the usual patent medicines, which are in the most part alcoholic concoctions. The ingredients cost but little and are easily mixed at home. Every man and woman here should make some up and try it if they feel their system requires a good blood medicine and tonic.

The Kargon to clean the kidneys and vitalize them so they can clean the blood, Sarsaparilla to make new rich blood and Dandelion to tone the stomach, clean the liver and make it active and relieve constipation is the way the prescription acts and so mildly and gently that one does not consider they are taking a medicine.

Controller Urges National Banks to Increase Their Bank Note Circulation--All Mints Working at Full Capacity.

Washington, Oct. 30.—Controller Ly as it can be done, not only in the Ridgeley issued an official statement large cities requiring currency for today which says:

"The Controller's office will in every in the country districts where the proper way facilitate the immediate banks have difficulty in obtaining increase of National bank note circulation from their reserve agents. With this end in view, all such. There are a large number of banks national banks as have government which have less than the maximum bonds in the hands of the treasurer amount of circulation outstanding of the United States, to secure deposits, so that have any available capacity for increased circulation, will be allowed to substitute other bonds satisfactory to the secretary of the treasury as basis for governmental deposits, provided the government bonds thus released are used to increase circulation.

This rule will apply not only where the bank transferring the bonds from the deposit account to the circulation account takes out the additional circulation notes, but also where an arrangement can be made for any other national bank having capacity for increased circulation to take out the additional notes.

"National banks are urged to take this question up immediately with the department by telegraph and take out the additional circulation as rapidly as possible. The controller's office will be glad to furnish whatever information is needed in regard to the circulation printed and in hand and bonds available for this purpose.

GUESS ABOUT APPOINTMENTS

President Sees Many Oklahomans--Cromwell and Campbell May get the Judgeships--Roosevelt Reiterates Promise of Statehood Nov. 16.

Washington, Oct. 30.—Nobody knows the mind of the president regarding appointments to federal positions in Oklahoma. Candidates and their friends are guessing and also claiming. It is a fact, however, that several candidates for the judgeship of the eastern district admit that Judge R. E. Campbell will in all probability be appointed. It was practically admitted last night that the president would appoint W. O. Cromwell to the bench of the Western district, and but it does not appear so likely tonight. It is believed that if Cromwell is not selected, Judge Bayard T. Hainer will be chosen. There is strong reason for believing that Judge Hainer will be appointed.

Gov. Frantz has recommended Cromwell, the attorney general of Oklahoma, and also Judge Campbell.

Alonso A. Biers of Oklahoma City, a leading democratic member of the constitutional convention, had a long

talk with the president today, and came away convinced that the two judges would be taken from the trio composed of Judges Hainer, Campbell and J. T. Dickerson. He was inclined to believe the first two would be chosen.

It is reported tonight that an agreement has been reached through which Judge Dickerson is to be appointed to the District Attorneyship of the Eastern district, with Judge Campbell on the bench. This is not absolutely confirmed.

The prospects of candidates for the other offices to be filled are absolutely unknown. They appear to have been lost sight of entirely in the struggle for other places.

The president received many Oklahomans today, all of them desiring to discuss appointments.

Gov. Frantz called, but merely for the purpose of presenting some friends.

Judge J. H. Campbell of McAlester, the only democratic candidate for appointment to the bench in the state, sprung somewhat of a surprise by announcing today that the president was considering his claims most favorably, and would not make an appointment to the bench of the Eastern district until he had talked further with him.

"President Roosevelt told me personally," said Judge Shepherd tonight, "that he was satisfied as to my character and qualifications and needed only local endorsements. Those I have sent for, and Mr. Roosevelt has promised to await their coming before making an appointment. I believe the republicans are so badly divided that a democrat is justified in expecting to win out."

The vigorous protest registered by Gov. Frantz against outside interference in the matter of appointment, such as Senators Warner of Missouri and Curtis and Long of Kansas have been guilty of, was a feature of today's proceedings.

Senator Warner called on the president today and introduced Represent-

CLEAN YOUR BLOOD.

Valuable Prescription Which Takes Out All the Impurities.

A leading health journal is answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following: Fluid Extract of Dandelion one-half ounce, Compound Kargon one-half ounce, Compound Sarsaparilla one-half ounce, Compound Sarsaparilla one-half ounce.

It cleans the blood of all impurities and purifies the blood. In a few days the skin begins to clear of spots, blemishes and pimples. It purifies the system, into the blood, and makes a man and woman feel like a new man and woman. For many years Sarsaparilla has been considered a good blood medicine, but while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Kargon and Fluid Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

This prescription is better than the usual patent medicines, which are in the most part alcoholic concoctions. The ingredients cost but little and are easily mixed at home. Every man and woman here should make some up and try it if they feel their system requires a good blood medicine and tonic.

The Kargon to clean the kidneys and vitalize them so they can clean the blood. Sarsaparilla to make new rich blood and Dandelion to tone the stomach, clean the liver and make it active and relieve constipation is the way the prescription acts and so mildly and gently that one does not consider they are taking a medicine.

ACTION BY CONGRESS NEEDED

Though Crisis is Over Measures Must be Taken for Permanent Policy--System of Credit Currency a Remedy Discussed.

New York, Nov. 4.—Last week was given over to the work of rehabilitation of financial conditions, and much progress has been made, although there remained many elements of disorder in the situation.

This was inevitable from the shock of the preceding week's events in New York. The cause of the disturbance was limited, however.

The arrangements for good importations have reached the neighborhood of \$100,000,000, and this week this broad stream of replenishment of the reserve fund will flow into New York banks. The feeling that this supply was abundant has done much to fortify confidence, but the actual reviving effect of lending and money operations

awaits the arrival of the gold. Meanwhile, the example set by New York in the adoption of clearing house certificates for the payment of balances between the banks has been followed by the great money centers of the country, and has safeguarded the banks from the strain induced by the shock sent through the banking fabric.

Further relief is looked for from the facilities extended by the controller of the currency for an increase in bank note circulation, by allowing the substitution of state and municipal bonds for the government bonds held as collateral for government discounts with the banks the government.

THE JIM CROW LAW FIRST

Such is the Probable Plan of the Legislature--Social Segregation of the Races Considered of Prime Importance--Other Items from Guthrie

Guthrie, Ok., Nov. 4.—Probably the first bill introduced in the Oklahoma legislature will provide for separate waiting rooms and coaches for the white and negro races. This subject was handed down from the constitutional convention to the first legislature under what the convention regarded as positive assurance that the constitution would not be favorably treated by the president should the "Jim Crow" provision be written therein. Although separation of the races was a general demand in the delegation election of a year ago, many members of congress of both parties held that the policy of making it a constitutional matter was dangerous.

The "Jim Crow" law was recommended in a resolution to the legislature from the constitutional convention.

The governor's approval of the "Jim Crow" law is not a matter of doubt, providing its features are in strict accord with the people's desires. Those favoring their attention to this particular piece of legislation favor following the laws of Texas and Arkansas, with the additional provision that accommodations given the negro must be simple and as comfortable as provided other passengers. The constitution defines the races, as follows: "Whereas, in the constitution and laws the word or words colored, colored race, negro or negro race are used, the same shall be construed to mean all persons of African descent. The term white race, shall include all other persons."

Guthrie, Ok., Nov. 3.—A feature of

QUALITY stands for something.

It was a platform demand of the democratic party in the last state campaign, and will receive the unqualified endorsement of the administration in Gov. Haskell's first message.

It is said there are twenty-five bills already prepared upon the subject by members of both houses, indicating the legislature will have no difficulty in settling upon a bill to suit the public taste. It is also indicated that the bill be passed through both branches with little debate under the usual legal declaration that "the welfare, peace and dignity of the state are paramount, hence an emergency exists, and it is hereby declared that the said law take effect and be in force on and after its passage and approval by this excellent legislature."

Otherwise the act would not become effective for ninety days following adjournment of the legislature.

Senator Clarence A. Davis, of Dole, I. T., who is here and has a "Jim Crow" bill prepared, believes there is no question as to the legality of the emergency clause in this instance, and is prepared to show by a recent Oregon decision that the legislature is authorized to pass emergency matters, and that the constitution is not violated in the emergency clause.

The meeting called by Gov.-elect Haskell, between state officers-elect and county officials and commissioners, for Monday here, will be to devise a plan by which the party and new counties in Oklahoma may secure a financing plan. The new counties are almost exclusively in Indian Territory. In a plan for immediate county bond issues amounts based upon population, the new state would have authority to invest a portion of the \$5,000,000 school fund to be received from the government in lieu of public lands. In these counties bond issues, which the legislature would be asked to validate, to insure constitutional objection, it is believed that new counties will be given in the immediate future to begin business.

Another feature of the meeting will be to adopt some uniform bookkeeping and recording system.

Ed Reno's Offer--Baptist College

Carlton Weaver came in yesterday from Ardmore where he has been attending the Baptist State convention. After an intense rivalry among various Oklahoma cities for the location of the state Baptist college, each of the cities offering attractive inducements, the plan was awarded to Ed Reno.

Ed Reno's offer consists of 640 acres of land and Indian mission buildings thereon situated four miles from town on the railroad at a station called Burlington. All things considered, the convention decided Ed Reno was the best offer.

Controller Urges National Banks to Increase Their Bank Note Circulation--All Mints Working at Full Capacity.

Washington, Oct. 30.—Controller by as it can be done, not only in the Ridgely issued an official statement large cities requiring currency for today which says:

"The Controller's office will in every in the country districts where the proper way facilitate the immediate banks have difficulty in obtaining increase of National bank note circulation. With this end in view, all such national banks as have government which have less than the maximum bonds in the hands of the treasurer amount of circulation outstanding of the United States, to secure deposits, as shall have any available capacity for increased circulation, will be allowed to substitute other bonds satisfactory to the secretary of the treasury as basis for governmental deposits, provided the government bonds thus released are used to increase circulation.

"This rule will apply not only where the bank transferring the bonds from the deposit account to the circulation account takes out the additional circulation notes, but also where an arrangement can be made for any other national bank having capacity for increased circulation to take out the additional notes.

"National banks are urged to take this question up immediately with the department by telegraph and take out the additional circulation as rapidly as possible. The controller's office will be glad to furnish whatever information is needed in regard to the circulation printed and in hand and bonds available for this purpose.

WM. B. RIDGELY,
Controller of the Currency.

Work Mints to Capacity.
Controller Ridgely has taken up this question with the national banks with a view to giving relief as quick-

heads on deposit to secure government deposits. Mr. Ridgely is urging these banks to substitute other bonds acceptable to the Treasury for their depositories' security and have the government bonds thus released for taking out increased circulation.

There is a possibility of increasing the circulation from \$10,000,000 to \$20,000,000 in this way with circulation notes actually printed and now on hand in the vaults of the controller's office.

Three Hundred Million Increase.
There are over \$50,000,000 of government bonds in the hands of the treasury to secure government deposits, and it would be possible to increase national bank circulation by over \$200,000,000 before the limit of capital stock is reached. The telephone and telegraph lines are being used to urge banks to take prompt action on this matter.

The conditions in the Treasury department, according to the officials, are very satisfactory in view of the large disbursements of the past week.

The director of the mint has been instructed to work to the utmost capacity of the mints at San Francisco (Continued on Page Two.)

GUESS ABOUT APPOINTMENTS

President Sees Many Oklahomans--Cromwell and Campbell May get the Judgeships--Roosevelt Reiterates Promise of Statehood Nov. 16.

Washington, Oct. 30.—Nobody knows the mind of the president regarding appointments to federal positions in Oklahoma. Candidates and their friends are guessing and also claiming. It is a fact, however, that several candidates for the judgeship of the eastern district admit that Judge R. E. Campbell will in all probability be appointed. It was practically admitted last night that the president would appoint W. O. Cromwell to the bench of the Western district, and but it does not appear so likely tonight. It is believed that if Cromwell is not selected, Judge Bayard T. Hainer will be chosen. There is strong reason for saying that Judge Hainer will be appointed.

Gov. Frantz has recommended Cromwell, the attorney general of Oklahoma, and also Judge Campbell.

Alonso A. Byers of Oklahoma City, a leading democratic member of the constitutional convention, had a long

dent was considering his claims most favorably, and would not make an appointment to the bench of the Eastern district until he had talked further with him.

"President Roosevelt told me personally," said Judge Shepherd tonight, "that he was satisfied as to my character and qualifications and needed only local endorsements. These I have sent for, and Mr. Roosevelt has promised to await their coming before making an appointment. I believe the republicans are so badly divided that a democrat is justified in expecting to win out."

The vigorous protest registered by Gov. Frantz against outside interference in the matter of appointment, such as Senators Warner of Missouri and Curtis and Long of Kansas have been guilty of, was a feature of today's proceedings.

Senator Warner called on the president today and introduced Represent-

Attorney General Bonaparte, a democrat. "We desire to be allowed to compose our own differences," Frantz said, "and do not desire outside assistance."

"I can guarantee you statehood" were the parting words of the president today to Mr. Byers, who spent a few minutes with him.

Attorney General Bonaparte also told Mr. Byers there was not the slightest doubt that the president would issue his proclamation on Nov. 16. Judge Hainer said tonight he would leave for home Saturday morning, as would hold court at Perry on next Monday.

talk with the president today, and came away convinced that the two judges would be taken from the trio composed of Judges Hainer, Campbell, and J. T. Dickerson. He was inclined to believe the first two would be chosen.

It is reported tonight that an agreement has been reached through which Judge Dickerson is to be appointed to the District Attorneyship of the Eastern district, with Judge Campbell on the bench. This is not absolutely confirmed.

The prospects of candidates for the other offices to be filled are absolutely unknown. They appear to have been lost sight of entirely in the struggle for other places.

The president received many Oklahomans today, all of them desiring to discuss appointments.

Gov. Frantz called, but merely for the purpose of presenting some friends.

Judge J. H. Campbell of McAlester, the only democratic candidate for appointment to the bench in the state, sprung somewhat of a surprise by announcing today that the pre-
